

Sale Name: 2025 PLA Spring Auction

LOT 129 - Vintage "Dead Man" Counterbalance

Description

Estimate 400-500lbs! This was hand forged by Vern Lytle, Pukwana, SD, who was a blacksmith and well driller in the 1940s & 50s. The last time this dead man was used, was drilling the flowing well - which you can still see - on the south side of Interstate 90 - just west of the Pukwana interstate exit 272. Great history with this item!
